Preface

National Academy for Planning and Development (NAPD) is mandated for organizing training and conducting research in the area of development planning and project management to materialize the national vision of transforming Bangladesh into a middle income country by 2021.

To perform its duties systematically, NAPD publishes a training calendar at the beginning of each financial year. It helps not only the faculties and support staff of NAPD, but also the nominating agencies, public and private, by providing information to choose the right courses in right time for their officers.

The 2017-18 Training Calendar is prepared by reviewing the objectives and contents of each course, so that participants and nominating organization obtain clear idea about learning outcome of the courses. In addition to regular day and evening courses, NAPD offers different tailor-made (request) training courses to meet the organizations' needs. Moreover, new courses are added every year to cope with the challenges of current age. In 2017-18, course on statistical software SPSS is added for financial analysts and researchers. Similarly, workshops on various development issues like SDGs, Public-Private-Partnership will be arranged throughout the year.

I hope NAPD with its competent faculties and experienced resource persons from Universities, Government and Non-Government agencies with up-to-date training facilities will be able to conduct the training programs as scheduled in this training calendar. Let me express my sincere thanks and gratitude to the head of different public and private organizations for extending their continuous support by nominating their officers in the Academy.
